

Abstracts, Keynote addresses, unreviewed book chapters

- [1] Stüwe K., 1984. Die Granitoiden Intrusionen und Gold Vererzung des westlichen Port Wells Mining districts, Prince William sound, Alaska. Diplomarbeit, Montanuniversität Leoben, 110p.
- [2] Wilson C.J.L., Stüwe K., Marsh P., and Ding P., 1986. Structural tectonic and metamorphic study of the Bungler Hills Region. Australian National Antarctic Research Expedition, Preliminary Scientific and field operations report, Australian Antarctic Division, Hobart, 1, 9-13.
- [3] Stüwe K., 1986. Genetic modelling for turbidite hosted gold deposits: A new example from southern Alaska (abstract), Geocongress 1986, Abstract volume, Johannesburg, South Africa. p. 579-582
- [4] Stüwe K., 1987. Some theoretical consideration on mineralogical Phase Relations in Pelitic Gneisses from the East Antarctic Shield. Mineralogical Society of Victoria, Public Lecture.
- [5] Stüwe K., 1987. Excursion Field Guide to the Larsemann Hills / Antarctica. Department of Geology, Melbourne University Press.
- [6] Stüwe K., 1987. Bungler versus Larsemann Hills - Two contrasting examples from High grade Proterozoic Belts on the East Antarctic Shield. (abstract) Workshop on Antarctic Geology, Hobart, Tasmania.
- [7] Stüwe K., 1987. Metamorphism in the Australian Antarctic Territory - The East Antarctic Shield. (extended abstract) Mineralogical Society of Victoria. Queens Birthday Seminar.
- [8] Stüwe K., 1987. The origin of geothermal gold deposits in southern Alaska and Deep crustal metamorphism in the Australian Antarctic Territory - The East Antarctic Shield Australian Defense Force Academy, Public Lecture.
- [9] Stüwe K., 1987. Bungler versus Larsemann Hills - Two contrasting examples from High grade Proterozoic Belts on the East Antarctic Shield. (abstract) Melbourne Universities Geology Conference, Geological Society of Victoria.
- [10] Stüwe K., 1988. Metamorphic and Structural Studies in the East Antarctic Shield. PhD Thesis, Melbourne University, 245p.
- [11] Stüwe K., Keays R.R., and Andrews A., 1988. Wall Rock alteration around the Wattle Gully Mine, Central Victoria, Australia. (abstract), Bicentennial Gold 88, Abstract volume, Melbourne, Australia, 478-480.
- [12] Gulson B.L., Andrew, A.S., Mizon, K.J., Keays R.R., and Stüwe K., 1988. Source of Gold in the Ballarat Slate Belt Deposits and Potential Exploration Applications (abstract), Bicentennial Gold 88, Abstract volume, Melbourne, Australia, 331-337.
- [13] Stüwe K., 1988. Bungler versus Larsemann Hills. Two contrasting low pressure granulite terrains in the East Antarctic Shield. (abstract), Tectonics Studies Group, Annual meeting, Cambridge, United Kingdom (copy missing)
- [14] Stüwe K., 1988. Isothermal Decompression in the Prydz Bay Area, Eastern Antarctica: Evidence from the Larsemann Hills. Department of Geology, Adelaide University, Seminar. 2.3.1988.
- [15] Stüwe K. and Hand M., 1989. Geological Reconnaissance of Depot Peak, Prince Charles Mountains, Antarctica. Australian National Antarctic Research Expedition, Report on the 1989-1990 Prince Charles Mountains Program, Volume 1, p.6.

- [16] Stüwe K., and Scrimgeour I., 1989. Early Paleozoic Tectonics of the East Antarctic Craton. Australian National Antarctic Research Expedition, Report on the 1989-1990 Prince Charles Mountains Program, Volume 1, 7-8.
- [17] Stüwe K., and Wilson C.J.L., 1989. Interaction between deformation and charnockite emplacement during compression accompanied cooling in the Bunger hills, Antarctica. (abstract), Australasian Tectonics Conference, Abstract volume, Kangaroo Island, Australia.
- [18] Stüwe K., 1989. Pressure-temperature-time paths and gold mineralisation (abstract). Jahrestagung der geologischen Vereinigung, Abstract volume, Leoben, Austria.
- [19] Stüwe K., 1990. Pan African uplift in East Antarctica. Department of Geology, Adelaide University, Seminar. 4.4.1990.

----- 1991 -----

- [20] Stüwe K., 1991. A Review of the Basement Geology and our current knowledge thereof in the Prince Charles Mountains. East Antarctica. (abstract), ANARE Research Notes, 85, 17-19.
- [21] Stüwe K., and Sandiford M., 1991. A model for the 500Ma event in the East Antarctic Shield. Eighth International Symposium on Gondwana, Hobart, Tasmania.
- [22] Stüwe K., 1992. New and old ideas about the Evolution of the eastern Alps since the Cretaceous. Adelaide University, Department Seminar, 25.3.1992.
- [23] Stüwe K., 1991. Eine Kurz-Einführung in das Modellieren einiger ausgewählter geodynamischer Probleme. Shortcourse at Vienna University, 40p.

----- 1992 -----

- [24] Stüwe K., and Sandiford M., 1992. Geomorphological Constraints on Cretaceous Nappe Tectonics and Uplift History of the Eastern Alps. (abstract), Terra, abstracts, 4, 64.
- [25] Stüwe K., and Sandiford M., 1992. Some Thermal and Isostatic Constraints on the Deformation History of the Eastern Alpine Lithosphere. (abstract), Terra, abstracts, 4, 64.
- [26] Stüwe K., Ehlers, K., Sandiford M., and Powell, R., 1992. Effect of latent heat of melting and shear heating on cooling rates in high temperature metamorphic environments. Specialist Group in Tectonics and Structural Geology, Abstract volume, Melbourne University.
- [27] Sandiford M., Zhou S., and Stüwe K., 1992. Mechanical significance of erosion as the agent for decompression in regional granulite terrains. Specialist Group in Tectonics and Structural Geology, Abstract volume, Melbourne University.

----- 1993 -----

- [28] Stüwe K., 1993. Towards the End of the PT-path Era for Metamorphic Geologists ?. Adelaide University, Department Seminar, 10.3.1993.
